PROFILE

Software Engineer with experience in web and mobile application development. Skilled in React, React Native, Node.js, MongoDB, and JavaScript. Focused on building usable applications with real-time data handling. Experienced with Git, API integration, and responsive design across devices. Ready to contribute as a Software Engineer in a team environment.

PROFESSIONAL EXPERIENCE

Solochoicez Pvt. Ltd

React Native Developer

July 2025 – Sep 2025

- Built mobile apps using React Native and Firebase.
- Real-time data and connected apps with the backend using Firebase.
- Built apps like Office Team Manager to help with office tasks management.

Ideagist Pvt. Ltd

Web Developer

Aug 2022 – Nov 2023

- Assisted in creating easy-to-use features for a better user experience.
- Helped improve website speed and performance by 20%.
- Tested websites for bugs, fixed issues, and maintained proper documentation.

PROJECTS

Web Apps

Team Task Manager

- Built using React.js for the frontend and Node.js with MongoDB for the backend.
- Allows users to create, manage, and collaborate on personal and team tasks.
- Enables team and task creation, task assignment, and progress tracking.

Virtual School

- Built using Flutter for the frontend and Firebase for the backend.
- Enables teachers, students, and admins to manage courses and assignments.
- Includes features such as user auth, course management, and virtual classrooms.

Mobile Apps

Habit and Diet Tracker

- Built a Habit and Diet Tracker mobile app using React Native.
- Implemented Firebase Authentication for secure login.
- Used Firestore for real-time data storage and management.

Cookie Clicker

- Built a Cookie Clicker game using React Native.
- Designed a single-player gameplay experience with addictive mechanics.
- Implemented upgrade options to enhance player engagement.

Current Projects

OfferAlert

- Developing a web and mobile app to display deals and discounts on various cards.
- Implements notifications to show the latest deals and offers.
- Built using React, React Native, Node.js, and MongoDB for full-stack functionality.

PSX insight

- Working on a web app to visualize market trends in the Pakistan Stock Exchange.
- Implements real-time predictions and analytical tools for users.
- Built using React for frontend, Node.js for backend, and MongoDB for database.

EDUCATION

Capital University of Science & Technology
Bachelor's in computer science
Mar 2022 – Feb 2026

SKILLS

Frontend

React
React Native
Flutter
Bootstrap
Tailwind CSS
JavaScript

Backend

Node.js
Express.js
PHP – Laravel
MongoDB
PostgreSQL
REST APIs

Game Dev

C#
C++
GDScript
Blueprint

AI/ML

Python
RAG Systems
LLM Integration
AI API Integration

Tools

Git/Github
Firebase
Postman
Unity
Godot

CERTIFICATION

React – FreeCodeCamp
React Native – FreeCodeCamp
JavaScript – FreeCodeCamp
Flutter – Udemy
LLM Mastery – Udemy
Gen AI – Udemy

ACHIEVEMENTS & EXPERIENCES

4x Dean's List/Honors

Participated in University Hackathon
Competed in LeetCode bi-weekly
